

Stabamid® Functional – Key Functionalities

for **Fibers** and **Textile**

Viscosity control

End group controlled

Special cross section

- Thermal resistance
- Flexibility to produce different cross section

Dyeing

deep

Super deep

Ultra deep

Very consistent dyeing affinity

cationic

- Sports ware and fashion application

- Anti stain (code HS)

Dullness

Ultra bright

bright

Semi dull

Full dull

Super dull

Ultra dull

- Cotton fake

- Skin protection (code RS)

Resistance to environment effects

Thermo resistance

UV resistance

- Thermal protection additive for high elasticity application

- Skin protection (code RS)
- UV protection & Outdoor application

Miscellaneous

P&H free

Antistatic

Special cross section
